eSupport and You

Introducing, eSupport and You!

Solus is excited to provide virtual Attendant Care Support that can be "stand-alone" or used in conjunction with in-person services.

Working through virtual engagement our "eSupport and You" service uses strategies to ensure individual needs are met as communities shift towards social distancing.

The "eSupport and You" team will work within existing client goal areas and provide recommendations for applications, virtual engagement strategies, resources, schedule planning and daily reminders. Our goal at Solus's eSupports is that of augmenting the work of the primary care team in order to enhance the individuals overall support plan and ultimately their quality of life through greater independence and autonomy.

"I've learned that people will forget what you said, people will forget what you did, but people will never forget how you made them feel."

Dr. Maya Angelou
